First Capital Group Continues Growth in Second Quarter
Company-wide revenue increased by 51%

BLOOMINGTON, Ind. (JULY 6, 2006) – First Capital Group announced today that revenue in the second quarter increased by 51% over the same time period in 2005. President and founder Tim Mitchell attributes the increase to the continued growth and profitability of the company's 40-business investment portfolio.

"The increase in our second quarter earnings is indicative of the strong performance of our portfolio businesses and the increasing value of our real estate holdings," said Mitchell. "We firmly believe that our growing network of resources and our process-driven investment strategy will allow us to sustain our growth and profitability."

In April, First Capital Group launched its newest business, Sentry Logistic Solutions. Headquartered in Indianapolis, Sentry provides full-service cold chain storage and logistics to the global biopharmaceutical industry. Mitchell noted that the introduction of Sentry to the marketplace will allow First Capital Group to grow its assets even further.

"Sentry further diversifies our portfolio as a strong entry in the biopharmaceutical storage and logistics market," said Mitchell. "We are confident that Sentry will help drive continued First Capital Group success."
